FE FIELD DISPATCH TO:

FROM : Chief, Far East Division
SUBJECT : Logistics/Mission and Functions of the
Far East Area Engineer
ACTION REQUIRED : For Information and Guidance

25X1A

1. Attached for your information and guidance is an outline of the mission and functions of the Far East Area Engineer who is located at the [REDACTED] Station.

2. All Far East Stations and Bases should utilize the services of the Far East Engineer on a timely basis when contemplating construction, major repairs, modifications and alterations, or large plant maintenance programs. The Far East Area Engineer's technical advice and services should be obtained in the early planning and development stages of new construction or maintenance programs and particularly when these projects will require specific Headquarters approval.
